

Number: PL -270  
Date: April 17, 2001  
From: North American Numbering Plan Administration (NANPA)  
Subject: 716 NPA Split, Creating 585 NPA (New York)

---

On May 22, 2000, the New York Public Service Commission (“Commission”) approved a geographic split of the 716 NPA along county boundary lines (Case No. 99-C-0800, Opinion No. 00-06). NANPA has assigned NPA code 585 for this purpose.

The new 585 NPA will encompass the following counties or portion of these counties that are in the existing 716 NPA: Orleans, Genesee, Wyoming, Allegany, Monroe, Livingston, Ontario, Yates and Steuben. The following counties and Indian Reservations will retain the 716 NPA: Niagara, Erie, Chautauqua and Cattaraugus counties and the Tonawanda and Oil Springs Indian Reservations.

The attached map illustrates the 585 and 716 configuration after the split is completed. Also attached are listings of the assigned central office codes (NXXs) and Rate Centers that will be associated with the 585 and 716 NPAs. These lists reflect assignments published in the LERG as of March 1, 2001. Since NXX information may change over time, consult the Local Exchange Routing Guide (“LERG”) or the NPA NXX Activity Guide (“NNAG”) for updated information. Information in the LERG and NNAG is available from Telcordia Technologies, Traffic Routing Administration (TRA) Group, at 732-699-6700.

The split of the 716 NPA, and the beginning of a permissive dialing period, will take place at 12:01 AM Eastern Time on November 15, 2001. The permissive dialing period will end on August 17, 2002 at 12:01 AM Eastern Time. During the permissive dialing period, either the 585 or 716 NPA code will be acceptable in a dialed number terminating in the new 585 NPA. After the permissive dialing period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. This intercept recording announcement shall be available at least until May 16, 2003.

All international and domestic carriers are asked to ensure that the new 585 NPA code has been activated throughout their network prior to November 15, 2001. Test calls to verify routing to the 585 NPA code can be made by dialing 585-997-9901. The test number will be in service beginning October 15, 2001 and will remain in place until July 23, 2003. A recorded announcement will indicate that the test call has been successfully completed.

All Wireless NXX Codes will automatically receive an extended three-year permissive dialing period unless the service provider notified NANPA in writing by the notification

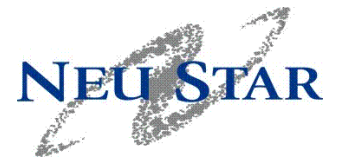

deadline of Friday, April 6, 2001 that they did not wish to have extended permissive dialing. The extended permissive dialing period ends for wireless carriers on November 15, 2004. Asterisks on the attached 585 NPA-NXX code lists note the 585 NPA Wireless NXX Codes that will receive the extended permissive dialing period.

After the beginning of mandatory dialing on August 17, 2002, the dialing plan for the 585 and 716 NPAs will be as follows:

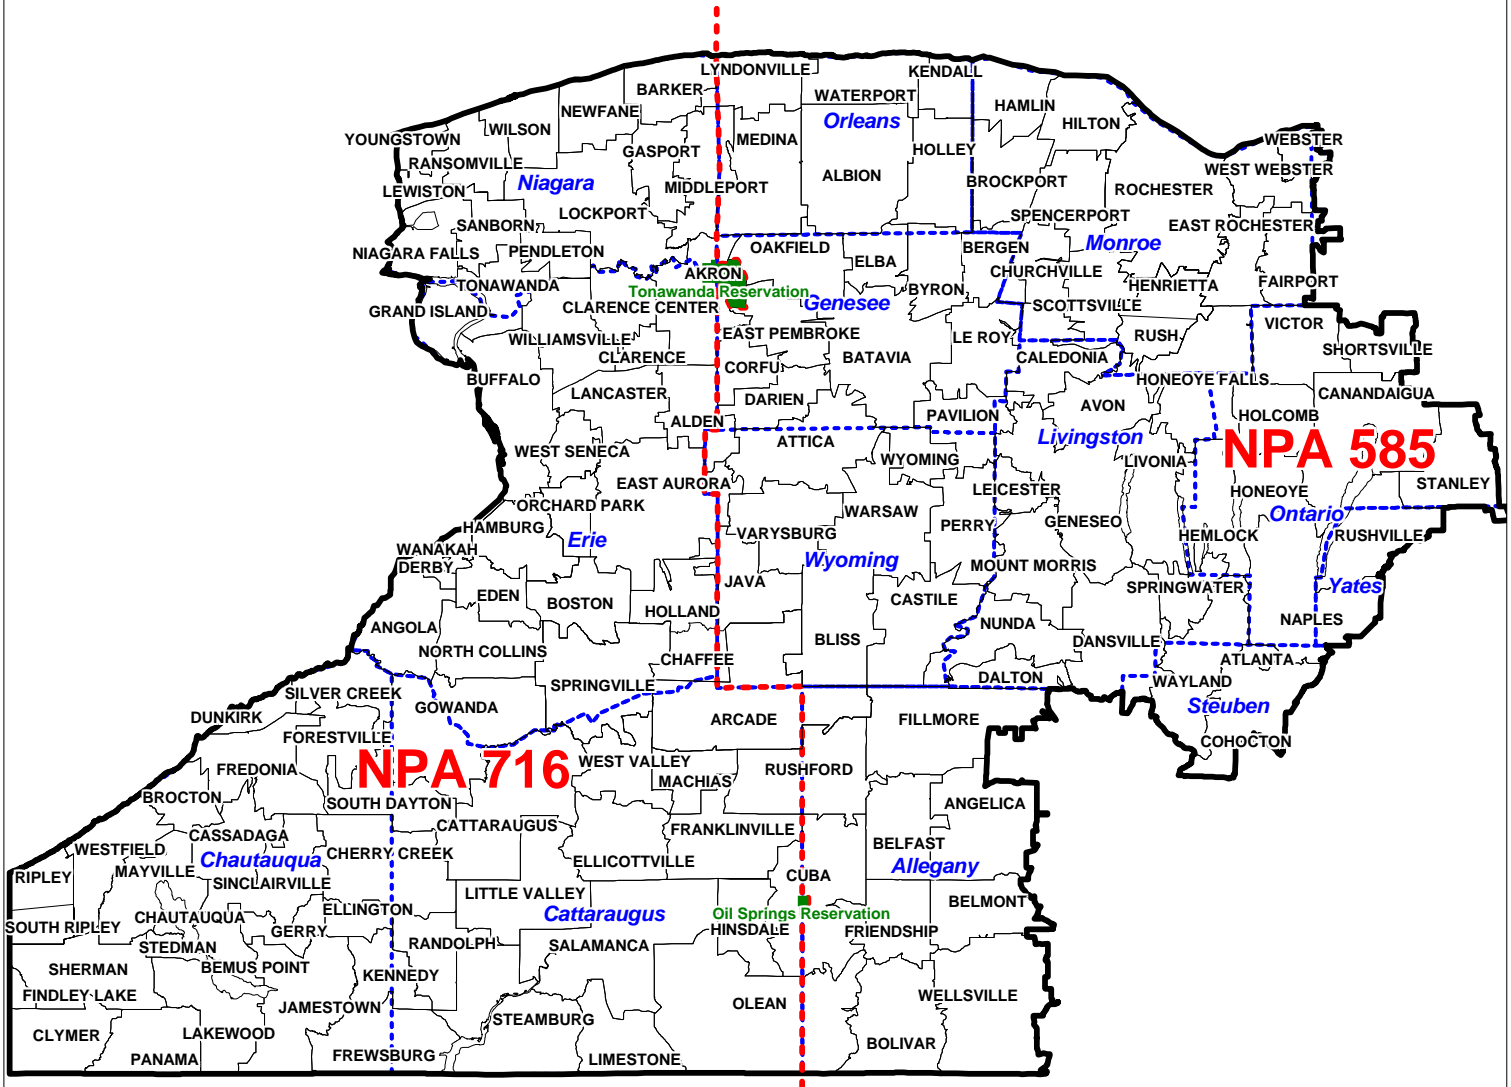

- All local and toll calls terminating in the home NPA will be dialed as 7-digits (NXX+XXXX) or permissively as 10-digits (NPA+NXX+XXXX) or 1+10-digits (1+NPA+NXX+XXXX).
- All local and toll calls terminating in a foreign NPA will be dialed as 1+10 digits (1+NPA+NXX+XXXX).
- All operator-assisted calls, including credit card, collect and third party will be dialed as 0 + 10 digits (0+NPA+NXX+XXXX).

General questions concerning the geographic split may be relief of the directed to Sandra Bocclair, NeuStar – NPA Relief Planning – Eastern Region, on 804 730-3772. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider.
