

Number: PL-292
Date: August 6, 2001
From: NANPA
Subject: 505 NPA Split, Creating 575 NPA (New Mexico)

On July 10, 2001, the New Mexico Public Regulation Commission (PRC) approved a relief plan calling for a geographic split of the 505 NPA, which currently serves all of New Mexico.

The new 575 NPA will consist of the Albuquerque, Santa Fe, Los Alamos and Belen local calling areas which includes the rate areas of Albuquerque, Belen, Bernalillo, Estancia, Laguna Acoma, Los Alamos, Los Lunas, Moriarty, Mountainair, Pena Blanca, Santa Fe, Tijeras and White Rock. The NXXs in the remaining rate areas will retain the 505 NPA.

The split of the 505 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Mountain Time on Sunday, March 3, 2002. The permissive dialing period will end at 2:00 AM Mountain Time on Sunday, February 9, 2003. During the permissive dialing period, either the 505 or the 575 NPA code will be acceptable in a dialed number terminating in the new 575 NPA. After the permissive dialing period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. This intercept recording announcement shall be available at least until 2:00 AM Mountain Time Sunday, June 29, 2003.

The attached map illustrates the 505 and 575 NPA configuration after the split is completed. Also attached are listings of the assigned central office codes (NXXs) and Rate Areas that will be associated with the 505 and 575 NPAs. These lists reflect assignments published in the LERG as of July 1, 2001. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the NNAG is free of charge and from the LERG is available by license contract from Telcordia's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA hotline at 732-699-6700.

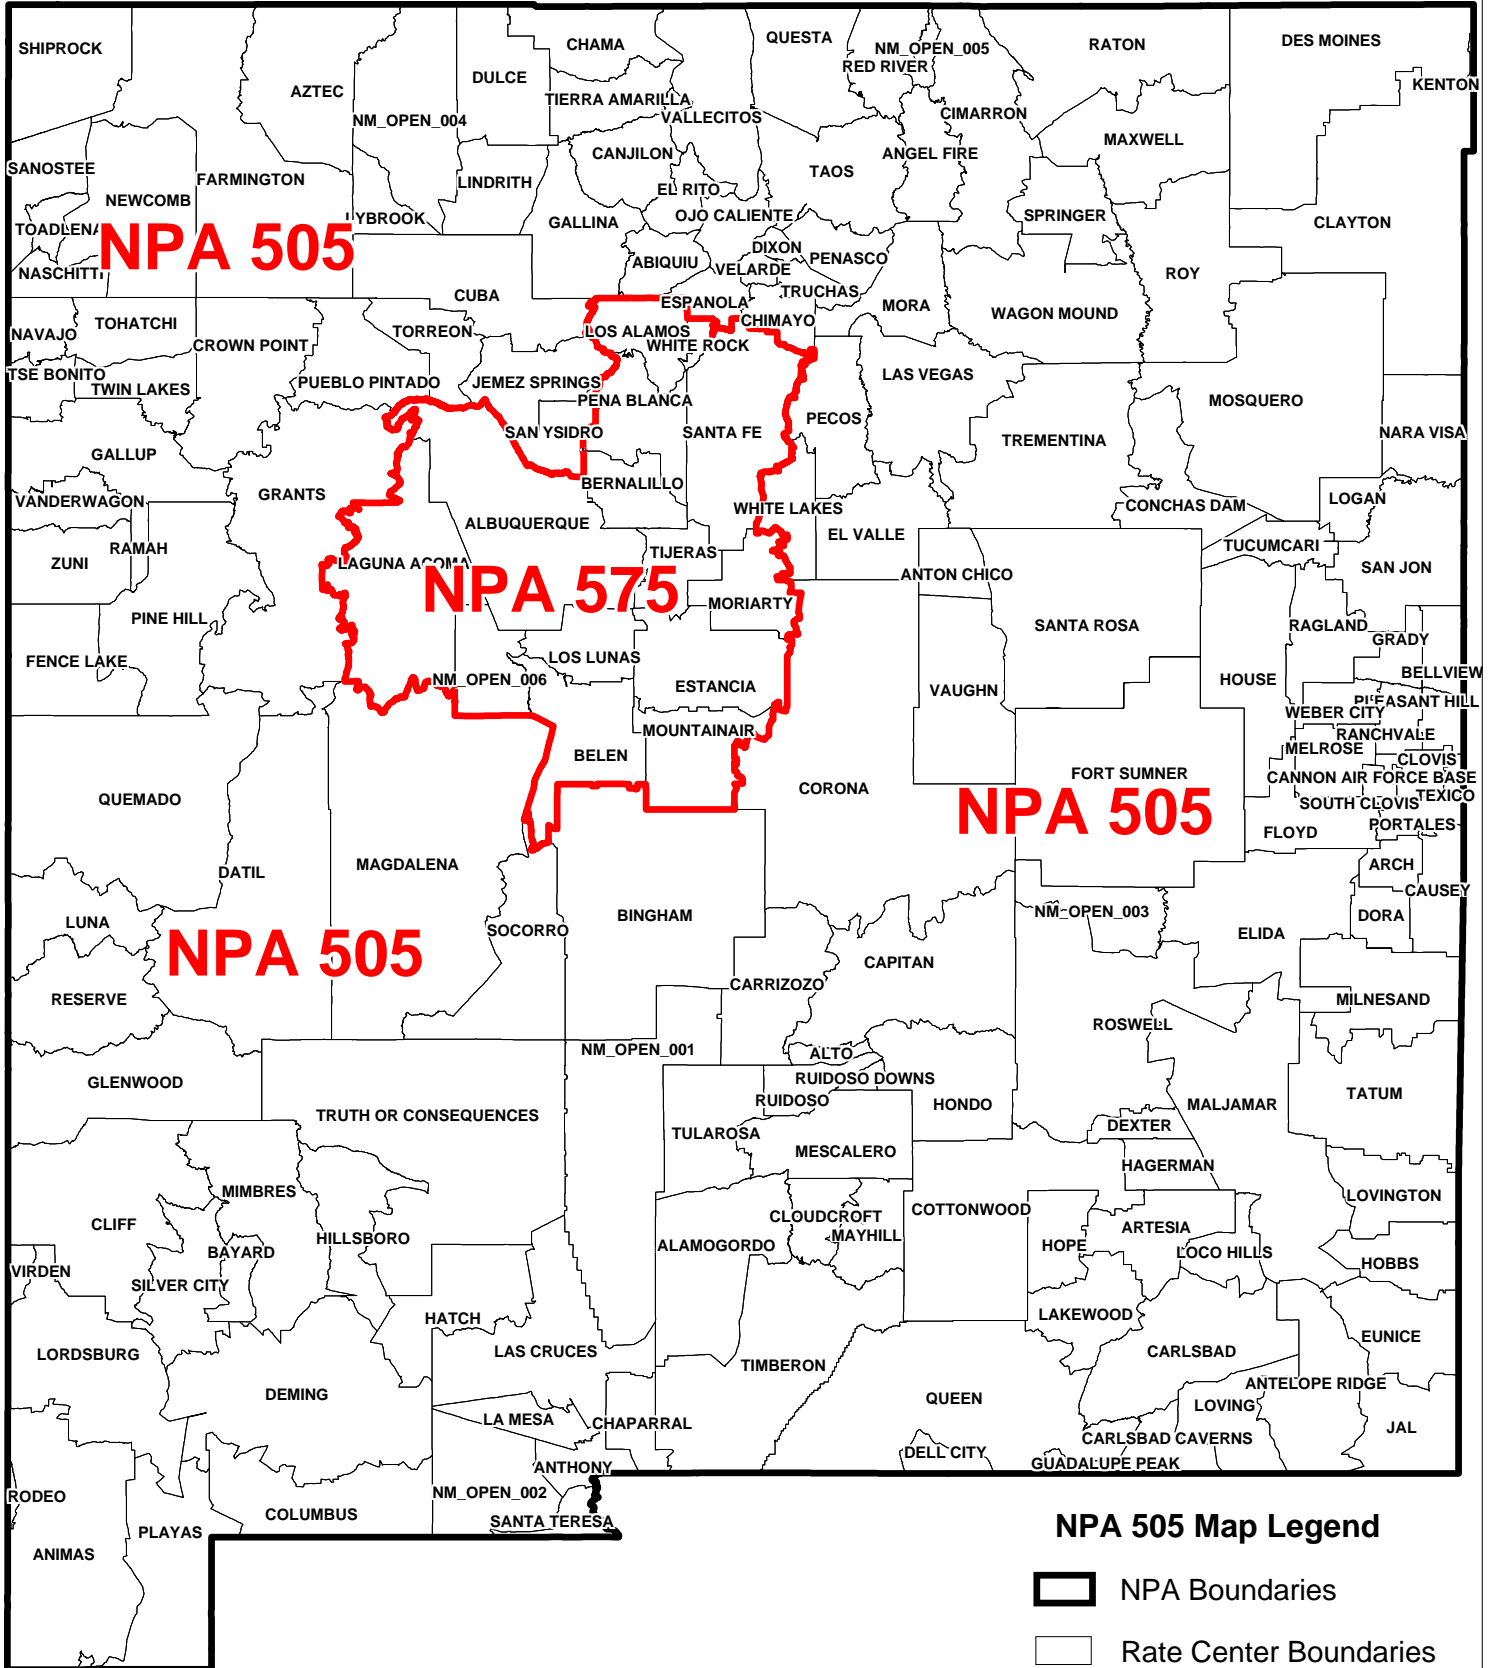

All international and domestic carriers are asked to ensure that the new 575 NPA code has been activated throughout their networks prior to March 3, 2002. Test calls to verify routing to the new NPA code can be made by dialing the test number (575) 858- 0575. The test number will be in service as of February 1, 2002, and will be disconnected no earlier than June 29, 2003. Calls successfully completed to the test number will receive a recorded announcement.

The dialing plan for the 575 NPA will be the same as the current 505 NPA dialing plan; namely,

- All home NPA local calls may be dialed on a 7-digit basis, with no prefix (NXX+XXXX).
- All HNPA and FNPA direct dialed toll calls, i.e., calls that generally incur an extra charge, must be dialed with a prefix "1" and 10 digits (1+NPA + NXX + XXXX).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits (0+NPA+NXX+XXXX).

General questions concerning the geographic split may be directed to Joe Cocke, NeuStar, Inc.– NPA Relief Planning – Western Region at 805-505-1945. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider.
