

Number: PL-301
Date: September 11, 2001
From: North American Numbering Plan Administration (NANPA)
Subject: 504/985 Split – Extended Permissive Dialing for Wireless (Louisiana)

On October 20, 2000, NANPA issued a planning letter (PL-242) to announce the split of the 504 NPA in Louisiana. Attached to that planning letter was a list of the NXX codes affected by the split, which included certain wireless NXX codes that were granted an extended permissive dialing period until October 22, 2002, in accordance with industry consensus. Since that time a number of additional wireless NXX codes were granted an extended permissive dialing period at the request of the Louisiana Public Service Commission. Attached, for your information, is a revised list of all wireless NXX codes in the 504 NPA that are currently affected by the extended permissive period.

General questions regarding the relief of the 504 NPA should be directed to Frank Colaco, Senior NPA Relief Planner, NANPA, on 973-740-9100. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.
